## handles and locking devices

The multi-point locking system offers burglar resistance and is approved according to burglary protection up to RC4 / WK4 class. For added security the system can be fitted with an integrated opening and locking monitoring and connected to standard external monitoring systems.

According to system configurations, concealed electric drives and locks can be used to increase operating comfort. Automatic locking (Remote Control, Home Automation Adaptation and Electromagnetic) and manual locking options are available.

Systems such as locking monitors (magnetic contacts), linear actuators, opening and securing cells or code switches complete **panoramah!** range of security accessories and offer enhanced safety.

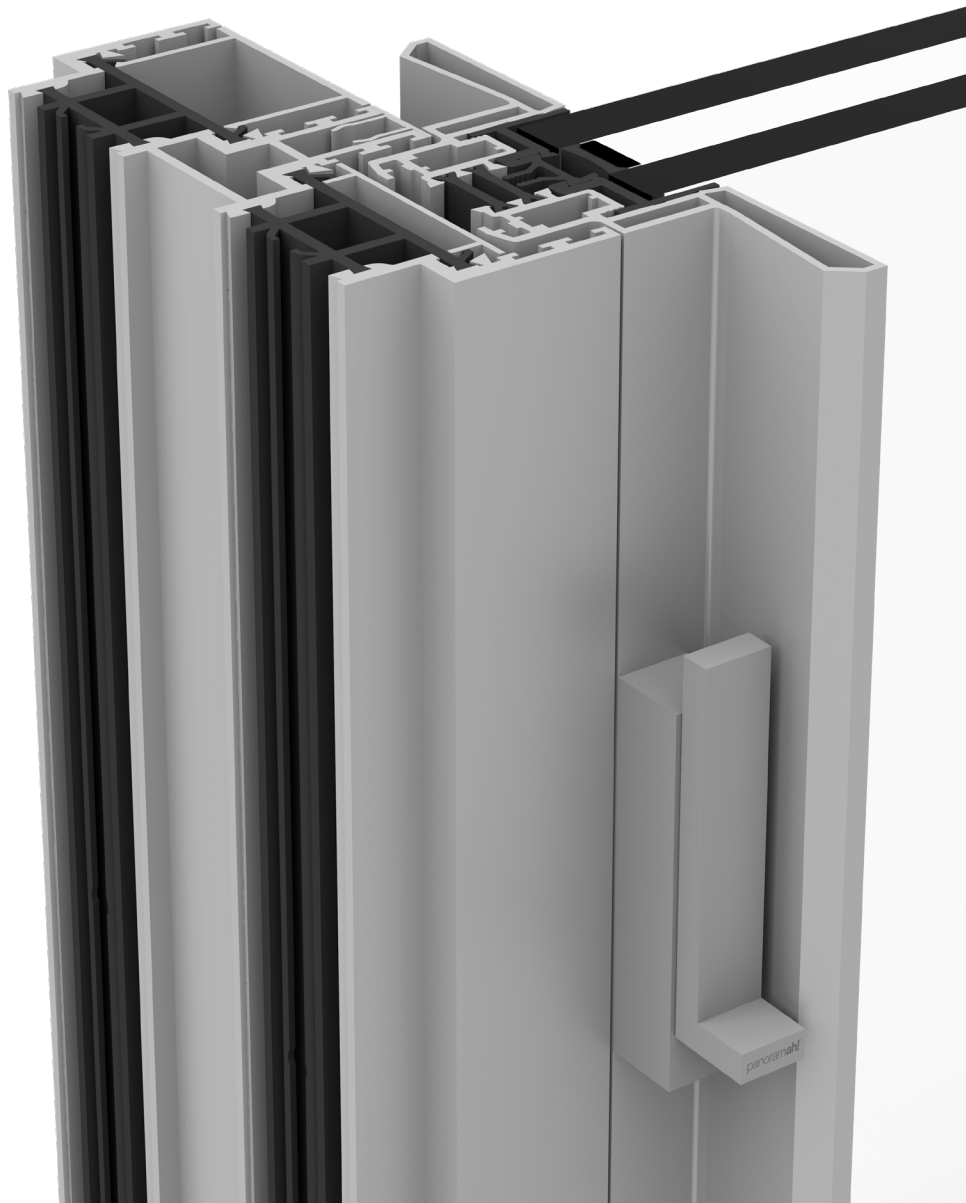

L handle with minimalist key cylinder incorporated (optional). This handle is personalized with **panoramah!**'s logo.

## poignées et dispositifs de blocage

Le système de verrouillage multipoints offre une résistance à l'effraction et est homologué en fonction de la protection anti-effraction jusqu'à la classe RC4 / WK4. Pour plus de sécurité, le système peut être équipé d'une surveillance d'ouverture et d'un verrouillage intégré et connecté à des systèmes de surveillance externes standards.

Selon les configurations du système, des motorisations électriques et des serrures dissimulées peuvent être utilisées pour augmenter le confort de fonctionnement. Des options de verrouillage automatique (télécommande, adaptation domotique et électromagnétique) et manuel sont disponibles. Des systèmes tels que des moniteurs de verrouillage (contacts magnétiques), des actionneurs linéaires, des cellules d'ouverture et de sécurité ou des commutateurs de code complètent la gamme d'accessoires de sécurité **panoramah!** et offrent une sécurité inégalée.

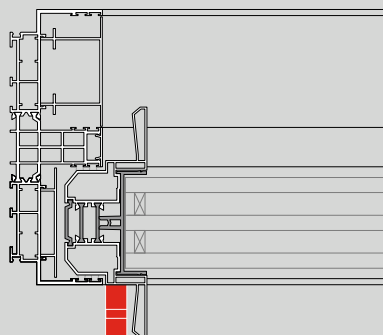

Poignée en L avec cylindre à clé minimaliste incorporé (en option). Cette poignée est personnalisée avec le logo de **panoramah!**
